Tributary

A monthly change feed for SEC-registered investment advisers, built from the SEC's Form ADV bulk files.

The SEC publishes a roster of every registered investment adviser each month. It's a big spreadsheet, and nobody looks at the differences between one month and the next. Those differences are where the interesting stuff is: firms registering, firms leaving, firms changing custodians, headcount jumps.

HOW IT RUNS

HIGHLIGHTS

- Rebuilds itself every month from the SEC's bulk roster, with no server to run.
- Handles the source's quirks: missing months, byte-identical re-posts, and a switch from Excel to CSV.
- 17,556 firm timeline pages, with history back to January 2024.
